

Patient Care Pathway

Supporting improved outcomes

Patient Care Pathway (PCP) is a tool to support you and your patients to track improvement in outcomes. The objective is to support you to strengthen the communication between you and your payers with the added benefit of being able to support your wearers' to achieve improved outcomes.

Pre and Post-Fitting Assessments

- These online tools can be accessed via a secure portal on the Touch Bionics web site and help to measure a patient's progress with our products. Areas captured include:
 - Medical History
 - Evaluation of Activities of Daily Living
 - Psychometric Evaluation
 - Goal Setting
- Use the Pre-Fitting Assessment to generate a treatment plan for a patient you feel would benefit from being fit with a Touch Bionics prosthesis.
- Regular completion of Post-Fitting Assessments will result in the provision of i-limb skin active coverings to the patient as per our Touch Care Program.

biosim Software

- biosim is the user interface for our prosthetic hand and digit solutions.
- Hand Health Check mode and device usage data are combined with the Patient Care Pathway to help you deliver improved outcomes to your patients.
