

Program Overview

Touch Link™ Academy is a world-class educational program for certified prosthetists (CPs) and occupational therapists (OTs) that provides training and certification in the proper use of Touch Bionics' products to help ensure the best possible patient outcomes. As part of the program, our clinical team provides dedicated training for your initial patient fit with i-limb™ ultra or i-limb™ digits.

Benefits

- Become a Certified Provider for i-limb ultra and/or i-limb digits, which also offers:
 - Listing on Touch Bionics' online Clinician Finder
 - Certificate to display in your practice
- Become highly-skilled in fitting and training patients with i-limb products to:
 - Fit patients at your own practice or a Touch Life Center
 - Help build your upper limb practice
- Learn all features and functions available for i-limb ultra and i-limb digits patients

Our i-limb ultra and i-limb digits training programs provide continuing education credits.

Program Learning Objectives

Track 1: i-limb ultra 1-Day Certification

- Proper patient selection for fitting i-limb ultra
- Understand i-limb ultra features, functions, and components
- Learn how to use biosim™ software to maximize function and personalize the prosthesis for each individual patient
- Review stages of therapy intervention for patients with i-limb ultra to help ensure the best possible outcomes
- Discuss successful fitting and training techniques for i-limb ultra patients
- Understand optimum billing and coding procedures to maximize practice revenue

Track 2: i-limb digits 3-Day Certification

- Proper patient selection for fitting i-limb digits
- Understand i-limb digits features, functions, and components
- Learn how to use biosim software to maximize function and personalize the prosthesis for each individual patient
- Discuss successful fitting techniques for partial hand patients
- Review stages of therapy intervention for patients with i-limb digits to help ensure the best possible outcomes
- Understand i-limb digits fabrication process
- Understand optimum billing and coding procedures to maximize practice revenue
